Feature	Advantage	Benefit
Spindle length 40 mm.	The spindle will reach and cross the Espag, thus giving a proper grip to operate.	Suitable for most Profile – Espag combinations. No slippage while operating inside the Espag hole, so longer service life.
Coating thickness 90 µm	Colour does not fade / come off due to weather conditions or repeated gripping by hand.	Longer service life.
Base width 18 mm.	Can be used for outward opening windows when there is constrained space on sash for mounting the handle.	Suitable for use with most profiles.
